**THIRUVARUR – 614403**

**NOV 2022**

**ACKNOWLEDGEMENT**

**PERSONAL EXPENSE TRACKER APPLICATION**

**IN CLOUD COMPUTING**

I am very thankful to the management of SKP Engineering College, Tiruvannamalai for giving us this wonderful opportunity to study in this college and utilize all the facilities to the fullest.

My sincere thanks to lord blessing on us for the successful completion of my project. I thank proudly to Principal **Dr.S. N RAMASAMY, M.E, Ph.D.**, for his constant support and encouragement to our project.

I express my sincere thanks to **Dr. K.VELMURUGAN ,M.E, Ph.D.**, Head of the Department of Computer science and Supervisor **P.IMMACULATE REXI JENIFER, M.E** for us for guidance,timely suggestions and word motivation.

It is a Great pleasure to express my gratitude and thanks towards my project Guide **IMMACULATE REXI JENIFER, M.E** for his uninterruptable suggestions and words of improvements regarding my project, which played a major role in guiding me in my track.

We also extend our thanks to our Class Advisor and every member of the faculty who provided valuable academic guidance, and their co-operation to do this successful project. Finally, we would like to thank our parents, relatives and friends for their encouragement and enthusiastic co-operation.

## **PROJECT INDEX**

### **1. INTRODUCTION**

- 1.1 Project Overview
- 1.2 Purpose

### **2. LITERATURE SURVEY**

- 2.1 Existing problem
- 2.2 References
- 2.3 Problem Statement Definition

### **3. IDEATION & PROPOSED SOLUTION**

- 3.1 Empathy Map Canvas
- 3.2 Ideation & Brainstorming
- 3.3 Proposed Solution
- 3.4 Problem Solution fit

### **4. REQUIREMENT ANALYSIS**

- 4.1 Functional requirement
- 4.2 Non-Functional requirements

### **5. PROJECT DESIGN**

- 5.1 Data Flow Diagrams
- 5.2 Solution & Technical Architecture
- 5.3 User Stories

### **6. PROJECT PLANNING & SCHEDULING**

- 6.1 Sprint Planning & Estimation
- 6.2 Sprint Delivery Schedule
- 6.3 Reports from JIRA

### **7. CODING & SOLUTIONING** (Explain the features added in the project along with code)

- 7.1 Feature 1
- 7.2 Feature 2
- 7.3 Database Schema (if Applicable)

### **8. TESTING**

- 8.1 Test Cases
- 8.2 User Acceptance Testing

## **1. INTRODUCTION**

## **1.1 Project Overview**

This report entails the Personal Expense Tracker Application built with HTML, Flask and Docker. This project was developed by Ajith kumar P, Nathish B, Naveen K, Naveenkumar G, students of Anjali Ammal Mahalingam Engineering college under the guidance of Immaculate rexi jenifer P, guide and Khusboo, our industrial mentor from IBM for the Naalaiyathiran scheme of 2022

## **1.2 Purpose**

A personal finance app makes life easier by helping you to manage your finances efficiently. A personal finance app will not only help you with budgeting and accounting but also give you helpful insights about money management.

Personal finance applications will ask users to add their expenses and based on their expenses wallet balance will be updated which will be visible to the user. Also, users can get an analysis of their expenditure in graphical forms. They have an option to set a limit for the amount to be used for that particular month if the limit is exceeded the user will be notified with an email alert

## **2. LITERATURE SURVEY**

### **2.1 Existing problem**

The current problem is that users are not motivated to monitor their expenses and not willing to alter their spending trends. Our system introduces a goal and reward system to beat the problem. Secondly, the feature of sending reminders for recurring bills is a key feature in this app. Most often, users do not have the right guidance with spending and it is hard for them to analyze their mistakes. To make this process simpler, our app displays the spending trends as a graph to help users analyse and find the real reason behind his inability to meet their goal

### **2.2 References**

MINT-INDIVIDUAL/PERSONAL EXPENSES:

a. Mint is a free budgeting app that allows you to connect all of your financial accounts in one digital space

b. After connecting your financial accounts, Mint tracks your transactions and categorises them into budget categories to simplify tracking. Users can keep the default categories provided by Mint or create custom categories to fit their needs

c. Track all of your monthly bills through Mint and receive reminders so you can easily pay your bills on time

- d. Mint is meant for individual users and there's no option for joint Mint accounts. Users with joint financial accounts can each create their own Mint account and sync the same accounts to view the same information
- e. Mint is free for everyone to use.

#### GOOD BUDGET -INDIVIDUAL/PERSONAL EXPENSES:

- a. "Envelope method" - Users allocate a certain amount of their income into categories of expenses(groceries,clothing).
  - i. Users can visualise their spending better and define new goals
- b. Not linked to bank accounts/credit cards->manual entry of expenses make users aware of spending
- c. 256-bit bank grade encryption in a secure data centre
- d. Custom/predefined categories of expenses
- e. One year of transaction history

#### QUICKBOOKS - BUSINESS EXPENSES:

- a. Tracks business expenses on the fly, as well as income
- b. Syncs to bank accounts, credit cards and third-party apps like PayPal and Square
- c. Offers real-time dashboards to keep user updated on all financial transactions related to their business
- d. Different plans according to size of business and requirements(analytics, fast transactions)
- e. Full-service payroll is a feature of some plans

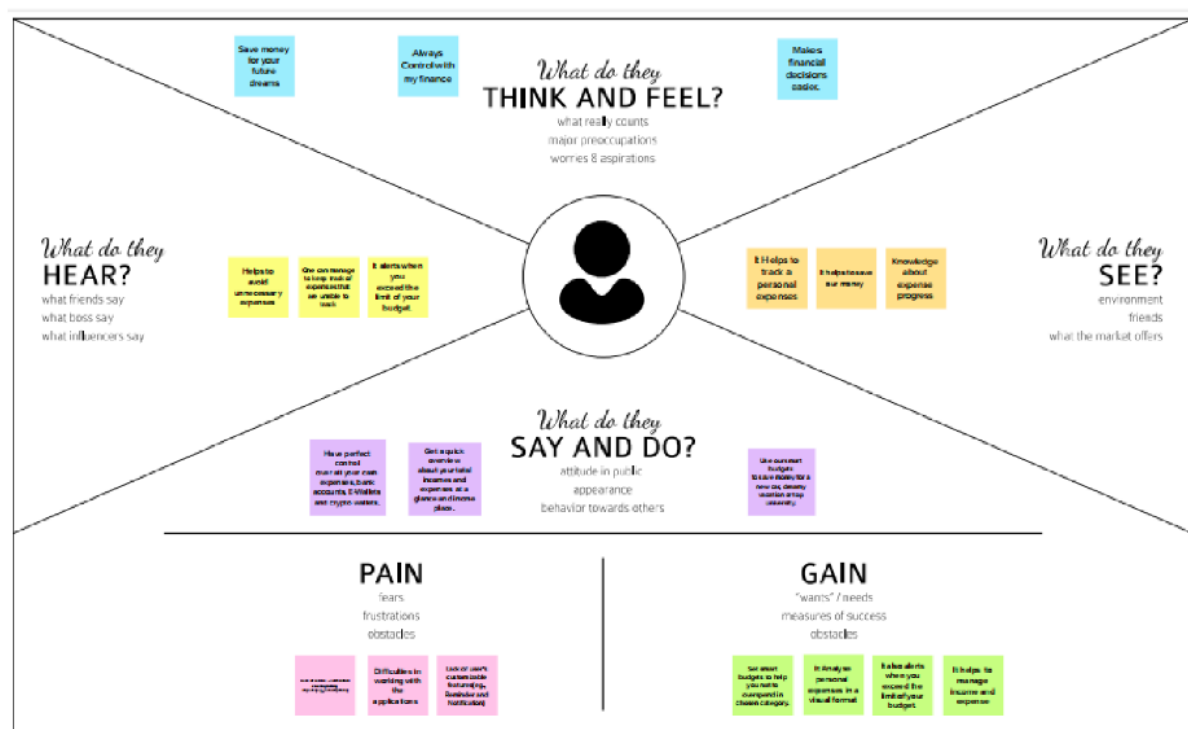

## **2.3 Problem Statement Definition:**

Users spend money on various transactions that may be a part of their daily routine or could be a one-time transaction. Every user has different priorities and thus different expenses. Our team aims to develop a customizable Personal Expense Tracker that allows users to tailor-make the application to suit their needs. We aim to do so through the provision of user-defined expense categories, rewards, goals, and limits to name a few. The application will also provide users with the feature to view a graphical analysis of their expenditure to understand their spending patterns and reach conclusions accordingly.

### 3. IDEATION & PROPOSED SOLUTION

#### 3.1 Empathy Map Canvas

##### Project - Personal Expanse Tracker Application:

## 3.2 Ideation & Brainstorming

Brainstorming provides a free and open environment that encourage everyone within a team to participate in the creative thinking process that lead to problem solving . prioritizing volume over value out of the box ideas are welcome and built upon and all participant are encourage to collaborate ,helping eachother develop a rich amount of creative solution

### Step-1: Team Gathering, Collaboration and Select the Problem Statement

## Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare  
 1 hour to collaborate  
 2-8 people recommended

 **Before you collaborate**

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

---

**A Team gathering**  
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

**B Set the goal**  
Think about the problem you'll be focusing on solving in the brainstorming session.

**C Learn how to use the facilitation tools**  
Use the Facilitation Superpowers to run a happy and productive session.

[Open article](#) 

**1**

**Define your problem statement**

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

---

**PROBLEM**

How might we [your problem statement]?

### Key rules of brainstorming

To run an smooth and productive session

|  |   |
|--|---|
|  Stay in topic.  |  Encourage wild ideas.   |
|  Defer judgment. |  Listen to others.       |
|  Go for volume.  |  If possible, be visual. |

## Step-2: Brainstorm, Idea Listing and Grouping

2

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Tip: You can record a video of your ideas and then go back and look at them later to see if you can group them.

#### P. Ajith Kumar

- Make a budget for all expenses and track it.
- Track your expenses and spend using any resource.
- Make a budget for all expenses and track it.
- Make a budget for all expenses and track it.
- Make a budget for all expenses and track it.

#### D. Harsh Kumar

- Sort the expenses into needs and wants.
- Sort the expenses into needs and wants.
- Sort the expenses into needs and wants.
- Sort the expenses into needs and wants.
- Sort the expenses into needs and wants.

#### K. Naveen

- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.

#### B. Nishith

- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.
- Track the expenses and spend using any resource.

SAVE MONEY

3

### Group ideas

Take time sorting your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-level title. If a cluster is bigger than six words, try and see if you can break it up into smaller sub-groups.

20 minutes

Tip: If you have a lot of ideas, try to group them into a few main categories. If you have a lot of ideas, try to group them into a few main categories.

- Use the 50/30/20 budget rule.
- Spend 50% for needs like housing, groceries.
- Spend 30% for wants like dining out, shopping.
- Spend 20% for savings, emergency fund.
- Track the expenses and spend using any resource.

Process transactions everyday.

Track the expense in daily and monthly basis.

Track your expenses as you spend using any resource.

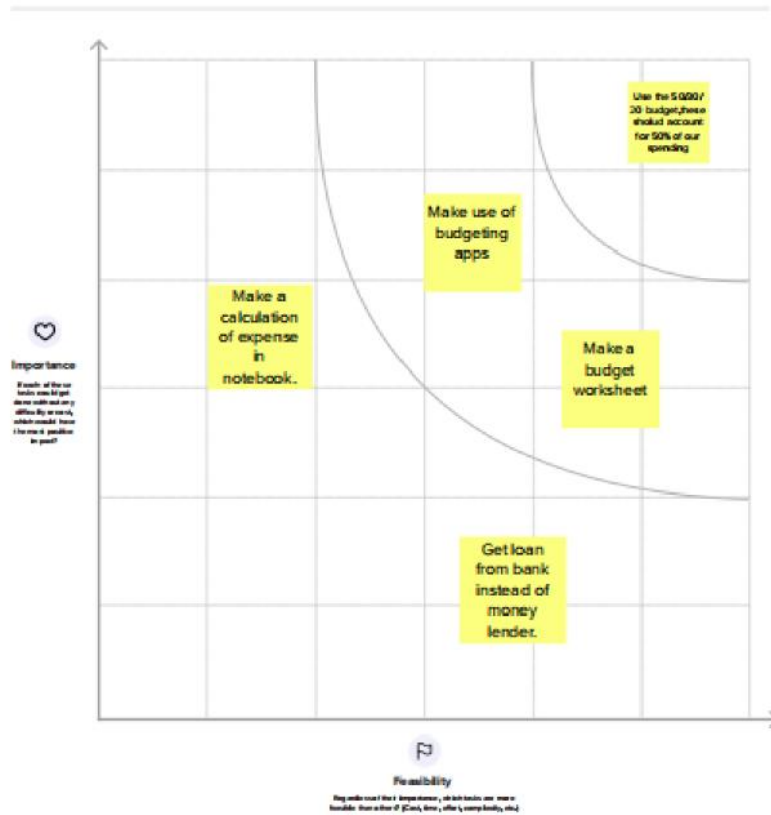

Make a calculation of expenses in notebook.

Make a budget spreadsheet.

Make a budget worksheet.

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

30 minutes

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

#### Quick add-ons

- 1. Share the mural  
Share a share link to the mural with stakeholders to keep them in the loop about the outcome of the session.
- 2. Export the mural  
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save it to your drive.

#### Keep moving forward

- Strategy Map it**  
Define the components of a new idea or strategy.  
[Open the template](#)
- Customer experience journey map**  
Understand customer needs, motivations, and obstacles for an experience.  
[Open the template](#)
- Strengths, weaknesses, opportunities & threats**  
Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop action.  
[Open the template](#)

[Share template feedback](#)

### 3.3 Proposed Solution

| S.No. | Parameter                                | Description   |
|-------|--|---|
| 1.    | Problem Statement (Problem to be solved) | There a lot of budget fixing software that are available online but some of these software fall short in helping users to actually create and stick to a budget. One of the drawbacks is the on-going maintenance, all users financial accounts and consolidating their activity into one dashboard. However though, some of this existing software mostly has complicated features that are not user friendly. Also, |
| 2.    | Idea / Solution description              | Due to the busy and hectic lifestyle people tend to overlook their budget and end up spending an excessive amount of money since they usually didn't plan their budget wisely. user cannot predict future expenses. While they can write down their expenses in a excel spreadsheet, their lack of knowledge in managing finances will be a problem   |
| 3.    | Novelty / Uniqueness                     | This application tracks your every expenses anywhere and anytime without using the paper work. Just click and enter your expenditure. to avoid data loss, quick settlements and reduce human error. To provide the pie chart or graph lines in this application.  |
| 4.    | Social Impact / Customer Satisfaction    | Using this application one can track their personal expenses and frame a monthly/annual budget. If your expense exceeded than specified limit, the application will show you an alert message in form of a pie chart.   |
| 5.    | Business Model (Revenue Model)           | Business people can use subscription/premium feature of this application to gain revenue.   |
| 6.    | Scalability of the Solution              | IBM cloud will automatically allocate the storage for the users.  |

### 3.4 Proposed Solution Fit

|                               |  |  |  |  |
|-------------------------------|--|--|--|--|
| Define CS, fit into CC        | <b>1. CUSTOMER SEGMENT(S)</b><br>Who is your customer?<br>i.e. working parents of 5-7 yrs. kids<br><br>Working people,Students, Home maker ,<br>Common people,Entrepreneur,Traveller.  | <b>6. CUSTOMER CONSTRAINTS</b><br>What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.<br><br>1. Users need smart phone for this application.<br><br>2. Users will not able to spend beyond their income amount and budget.  | <b>5. AVAILABLE SOLUTIONS</b><br>Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital note taking<br><br>This application organize and categorize the various types of expenses.<br><br>This application make plan for monthly budget and encourage to save money.   |  |
|                               | <b>2. JOBS-TO-BE-DONE / PROBLEMS</b><br>Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different jobs.<br><br>People face many problems while track the daily expenses<br><br>1.This application avoid the record of expenses with note.<br><br>2.It is difficult to make budget manually.This application helps to make better budget and avoid overspending. | <b>9. PROBLEM ROOT CAUSE</b><br>What is the real reason that this problem exists? What is the back story behind the need to do this job? i.e. customers have to do it because of the change in regulations.<br><br>It is challenging for people to track daily expenses<br><br>Make the monthly budget and identify the unwanted expenses  | <b>7. BEHAVIOUR</b><br>What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel; installer, calculate usage and benefits; indirectly associated: customers spend less time on volunteering work (i.e. Givepoorly)   | <b>3. TRIGGERS</b><br>What triggers customers to act? i.e. seeing their neighbours installing solarpanels; meeting about a more efficient solution to the issue.<br><b>Make a efficient budget manually and save the money</b> is a major problem among people.Unnecessary expenses should be avoid.This application helps to make these process easy. |
| P: tap into BE, understand RC | <b>4. EMOTIONS: BEFORE / AFTER</b><br>How do customers feel when they face a problem or a job and afterwards? i.e. lost, insecure > confident, in control - use it in your communication strategy & design.<br><br>Before: Tension,Confusion,Stress.<br>After: Confident on Spending money,Clear.  | <b>10. YOUR SOLUTION</b><br>If you are working on an existing business, refine down your current solution first, fit it in the canvas, and check how much it fits really. If you are working on a new business proposition, then keep it blank until you fit it in the canvas and come up with a solution that fits within customer situations, solves a problem and matches customer behaviour.<br><br>Users can able to add their income amount as balance in this application.They can set the limit of amount to spend so that they can avoid unnecessary spending.If they are exceeding the amount in the balance or the limit amount then the user will be notified through email. | <b>8. CHANNELS of BEHAVIOUR</b><br><b>B.1 ONLINE</b><br>What kind of actions do customers take online? Select online channels from #/ This application get income amount from users.Users set the budget and saving goal amount.This application provide graph for expense so users can identify unwanted expenses.<br><br><b>B.2 OFFLINE</b><br>What kind of actions do customers take offline? Factor offline channels from #/ and use them for customer development.<br><br>Record the daily expenses by pen in notebook and make plan for monthly budget manually.This application helps to track expenses easily. | <b>3. TRIGGERS</b><br>What triggers customers to act? i.e. seeing their neighbours installing solarpanels; meeting about a more efficient solution to the issue.<br><b>Make a efficient budget manually and save the money</b> is a major problem among people.Unnecessary expenses should be avoid.This application helps to make these process easy. |
|                               | <b>4. EMOTIONS: BEFORE / AFTER</b><br>How do customers feel when they face a problem or a job and afterwards? i.e. lost, insecure > confident, in control - use it in your communication strategy & design.<br><br>Before: Tension,Confusion,Stress.<br>After: Confident on Spending money,Clear.  | <b>10. ## 4 REQUIREMENT ANALYSIS :

### 4.1 Functional Requirement

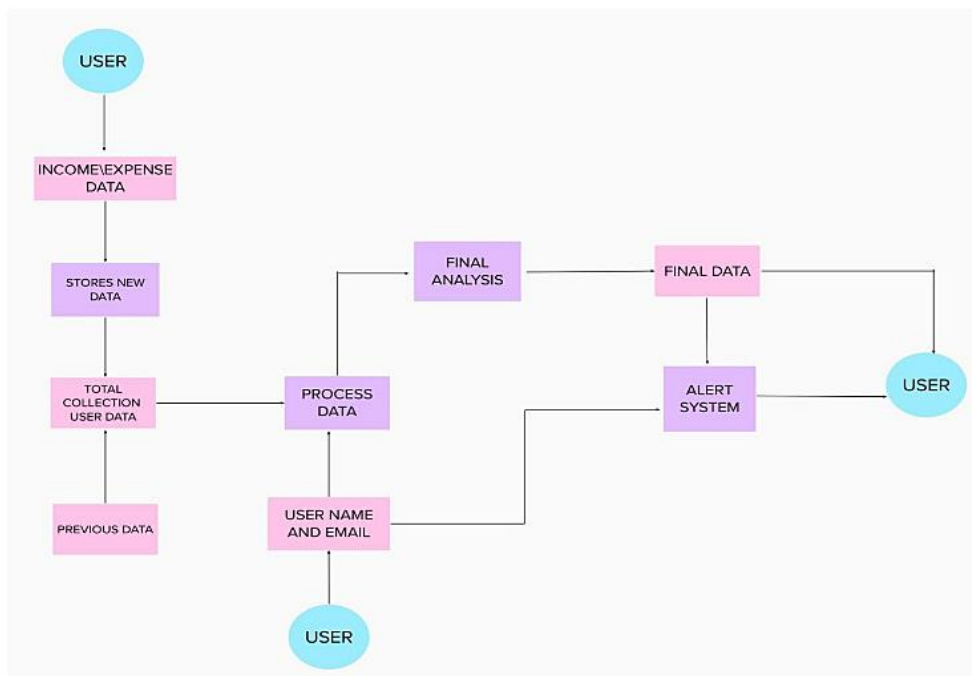

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)                |
|--------|-------------------------------|---|
| FR-1   | User Registration             | Registration through Form<br>Registration through |
| FR-2   | User Confirmation             | Confirmation via Email<br>Confirmation via OTP    |
| FR-3   | User Financial Accounts       | Account Details<br>Verification of Details        |
| FR-4   | User Dashboard                | Expense Data<br>Data Records                      |
| FR-5   | User Notifications            | System Access<br>Real time Alerting               |
| FR-6   | Security of User Data         | Secured Database<br>Data Security Algorithms      |

### 4.2 Non-Functional Requirements:

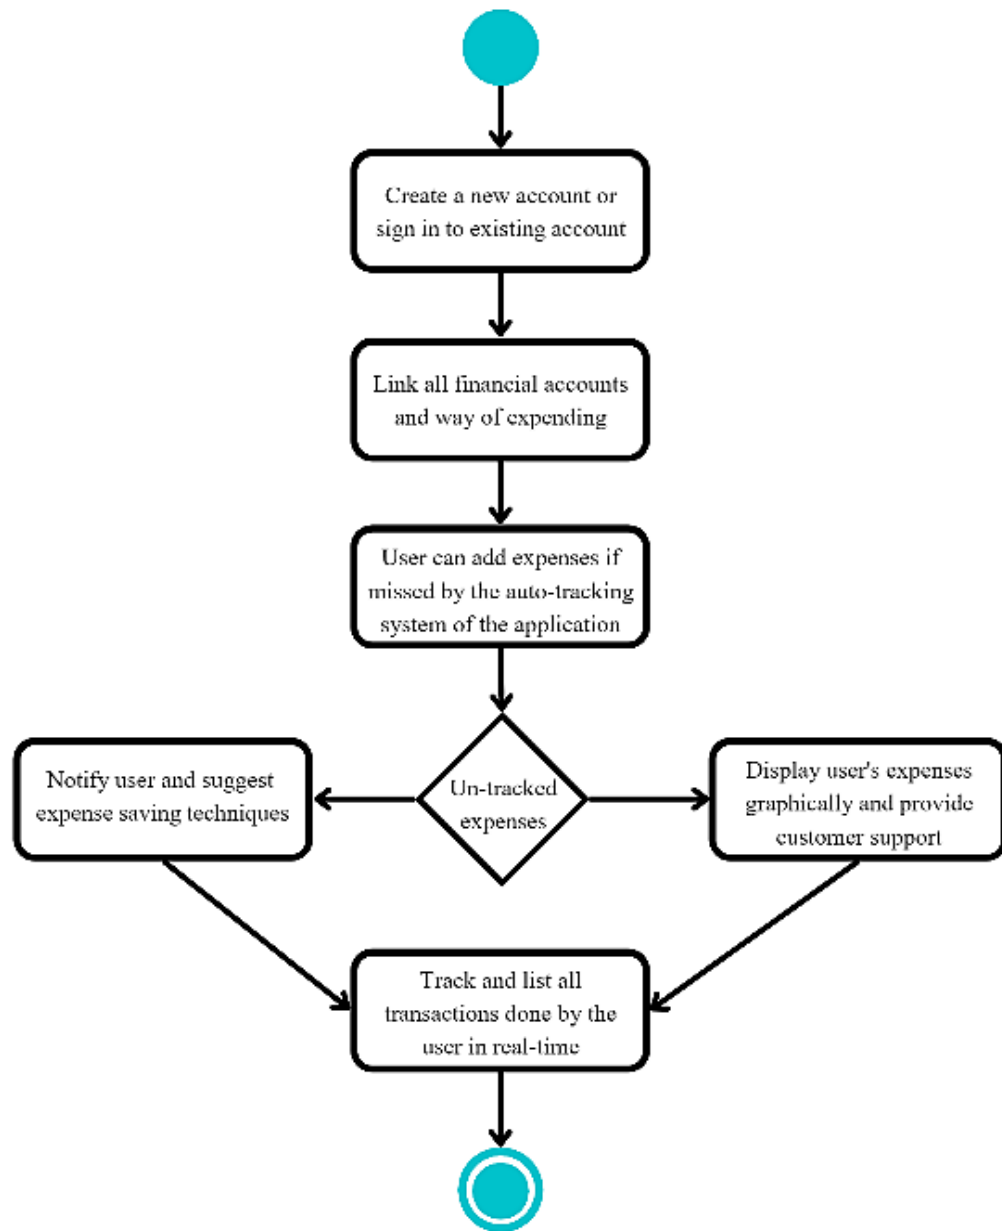

| FR No. | Non-Functional Requirement | Description  |
|--------|----------------------------|--|
| NFR-1  | Usability                  | By using this application, the user can keep track of their expenses and can ensure that user's money is used wisely.                                |
| NFR-2  | Security                   | Maintain user personal details in a encrypted manner by using data security algorithms.  |
| NFR-3  | Reliability                | It will maintain a proper tracking of day-to-day expenses in an efficient manner.  |
| NFR-4  | Performance                | By enter our incoming and departing cash, and the software can help you keep and monitor it with at-most quality and security with high performance. |
| NFR-5  | Availability               | Using charts and graphs may help you monitor your budgeting and assets.  |
| NFR-6  | Scalability                | Rely on your budgeting app to track, streamline, and automate all the recurrent expenses and remind you on a timely basis.                           |

## 5 PROJECT DESIGN:

### 5.1 Data Flow Diagrams

### 5.2 Solution & Technical Architecture

### 5.3 User Stories

| User Type | Functional Requirement (Epic)             | User Story Number | User Story / Task   | Acceptance criteria  | Priority | Release  |
|-----------|---|-------------------|---|--|----------|----------|
| Customer  | Registration                              | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password.                   | I can access my account / dashboard  | High     | Sprint-1 |
| Customer  | Confirmation                              | USN-2             | As a user, I will receive confirmation email once I have registered for the application                                     | I can receive confirmation email & click confirm   | High     | Sprint-1 |
| Customer  | Login                                     | USN-3             | As a user, I can login and access my dashboard and expenses page  | I can login and if I have been previously registered I can access my account                   | High     | Sprint-1 |
| Customer  | Add expense                               | USN-4             | As a user, I can add an expense   | Spent amount must be greater than existing amount and balance must be updated accordingly      | High     | Sprint-2 |
| Customer  | Add amount                                | USN-5             | As a user, I can add money to my account anytime necessary  | The amount I added must be updated for future transactions                                     | Medium   | Sprint-2 |
| Customer  | Dashboard                                 | USN-6             | As a user, I can view my dashboard to see balance remaining and last transactions and where I have spent them.              | All transactions previously must be updated accordingly and details must be fetched accurately | High     | Sprint-2 |
| Customer  | Alert the user about crossing expenditure | USN-7             | As a user, if I exceed my limit I should be warned with an email.   | Limit and amount spent up until then must be tracked accordingly.                              | Low      | Sprint-3 |
| Customer  | Show customer summary projections         | USN-8             | Every month end, as a user, I should be able to view my monthly expenses, projections in the form of dashboards and graphs. | Monthly expenses are kept track of and aesthetic projections are being presented to the user   | Low      | Sprint-4 |

## 6. PROJECT PLANNING & SCHEDULING

### 6.1 Sprint Planning & Estimation

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task   | Story Points | Priority | Team Members  |
|----------|-------------------------------|-------------------|---|--------------|----------|---|
| Sprint-1 | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password.                             | 2            | High     | Aarthi N & Aarthi S K                                   |
| Sprint-1 | Registration                  | USN-2             | As a user, I will receive confirmation email once I have registered for the application.  | 2            | High     | Anirudh T N & Joseph Amirtharaj                         |
| Sprint-1 | Dashboard                     | USN-3             | As a user, I can login and access my dashboard and expenses page.   | 3            | High     | Aarthi N & Aarthi S K & Anirudh T N & Joseph Amirtharaj |
| Sprint-2 | User Action                   | USN-4             | As a user, I can add an expense.  | 2            | High     | Aarthi S K  |
| Sprint-2 | User Action                   | USN-5             | As a user, I can add money to my account anytime necessary.   | 2            | Medium   | Aarthi N  |
| Sprint-2 | Dashboard                     | USN-6             | As a user, I can view my dashboard to see balance remaining, the last transactions made, and where I have spent them.                 | 3            | High     | Anirudh T N & Joseph Amirtharaj                         |
| Sprint-3 | Warning                       | USN-7             | As a user, if I exceed my limit, I should be warned with an email.  | 3            | Low      | Anirudh T N   |
| Sprint-3 | Customization                 | USN-8             | As a user, I should be able to set rewards and goals for myself to feel inclined to continue to spend wisely.                         | 5            | High     | Aarthi N & Aarthi S K & Anirudh T N & Joseph Amirtharaj |
| Sprint-3 | User Action                   | USN-9             | As a user, I can set a monthly limit for my expenses.   | 2            | Medium   | Aarthi N  |
| Sprint-4 | Customization                 | USN-10            | As a user, I can create custom categories that are given to me as a choice when I upload/update an expense.                           | 3            | Medium   | Aarthi S K  |
| Sprint-4 | Analysis                      | USN-11            | At the end of every month, as a user, I should be able to view my monthly expenses, projections in the form of dashboards and graphs. | 3            | High     | Aarthi N & Aarthi S K                                   |
| Sprint-4 | Warning                       | USN-12            | As a user, I should be able to set reminders to alert me of periodic transactions or delayed expenses that are to be completed.       | 3            | Medium   | Joseph Amirtharaj                                       |

## 6.2 Sprint Delivery Schedule

| Sprint   | Total Story Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date (Actual) |
|----------|--------------------|----------|-------------------|---------------------------|---|------------------------------|
| Sprint-1 | 06                 | 6 Days   | 24 Oct 2022       | 29 Oct 2022               | 07  | - (Meet Planned Date)        |
| Sprint-2 | 06                 | 6 Days   | 31 Oct 2022       | 05 Nov 2022               | 07  | - (Meet Planned Date)        |
| Sprint-3 | 06                 | 6 Days   | 07 Nov 2022       | 12 Nov 2022               | 10  | - (Meet Planned Date)        |
| Sprint-4 | 06                 | 6 Days   | 14 Nov 2022       | 19 Nov 2022               | 09  | - (Meet Planned Date)        |

## 6.3 Report From Jira

TO DO 6 ISSUES

As a user, I can add expenses and income

☒ VED-8

As a user, I can change my password through reset link from email

☒ VED-9

As a user, I can view my past expenses and income over a period of time and visualize them

☒ VED-10

As a user, when my monthly limit exceeds, I get a email notification

☐ VED-11

IN PROGRESS 3 ISSUES

As a user, I can register for the application by entering my email, password, name and confirming my password

☒ VED-5

As a user, I will receive confirmation email once I have registered for the application

☒ VED-6

As a user, I can log into the application by entering email & password

☒ VED-7

DONE ✓

As a user, I can...

☐ VED-12

+

Quickstart

## **7. CODING AND SOLUTIONING**

### **7.1 Feature - Add Expense**

This feature allows the user to add an expense, it takes in the amount spent, the date of the expense, the category under which the expense falls and the group to which the expense belongs. It also takes an optional description for the expense

### **7.2 Feature - Update Wallet**

This feature allows the user to update the wallet amount. This is useful, for example to reflect the receiving of salary.

### **7.3 Feature - Dashboard**

This allows the user to view the most recent expenses made. It displays each expense along with its details. It is also the home page which the user sees on logging in.

### **7.4 Feature - Rewards and Goals**

This allows the user to specify certain goals regarding expenses, for example, to spend less than a certain amount over a certain period of time. The user can also specify a reward on completion of the goal.

### **7.5 Feature - Set Monthly Limit**

This allows the user to set a limit on how much is spent in a given month. This can be changed. If the user's expenses exceeds the monthly limit, then a warning email is sent to the user

### **7.6 Feature - Add Category**

This feature allows the user to add his/her own categories. This allows for high customizability

### **7.7 Feature - Analyse Expenses**

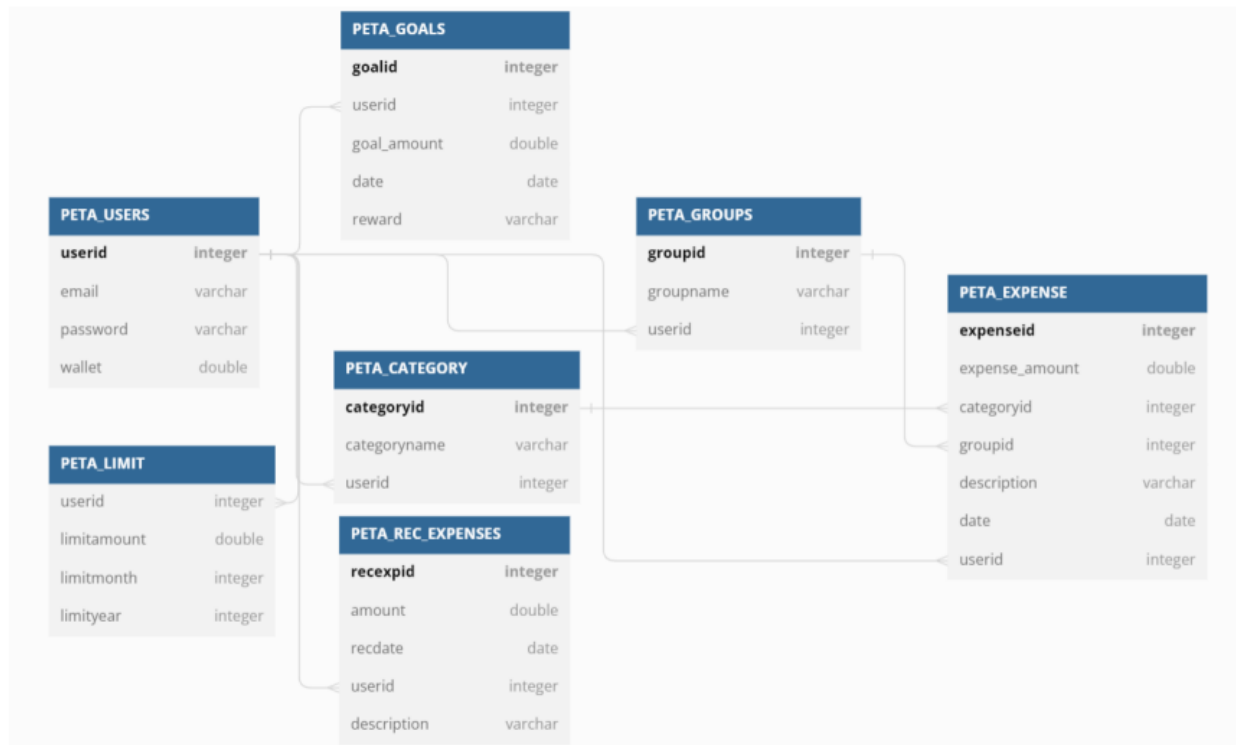

This feature allows the user to view how much is spent in a given period of time, and other analyses based on the user's expenses

### **7.8 Feature - Add Recurring/Periodic Expenses**

This feature allows the user to add an expense that is recurring for every month. This is useful, for example, to model bills that need to be paid.

### **7.9 Database Schema**

## 8. TESTING

### 8.1 Test Cases

- Verify that the user is able to login successfully on entering appropriate credentials.
- The UI elements, such as the card for the login, the button to submit etc are functional and are rendered properly in all devices.
- Users who enter invalid credentials will not be redirected to the dashboard
- Verify that users are able to register themselves to the application.
- The UI elements, such as the card for the registration, the button to submit etc are functional and are rendered properly in all devices.
- The user should not be able to register successfully if any of the fields are left empty.
- The user should receive the email from nunnaaarthi@gmail.com, stating a successfully registration.
- "The UI part of the dashboard,
- the side navbar, the logout option, the cards showing various expenses, and the wallet edit icon must be functioning and rendered properly"
- The UI part of the add expense page must be rendered and functioning.
- "The user must be able to add an expense. "
- The user should not be able to add the same expense again.
- The user should be able to update the balance and it must be reflected in the dashboard where the wallet balance is displayed.
- The user views all the UI components rendered properly and functioning accordingly.
- The user should be able to set a monthly limit for his expenditures.
- The page must render properly and function appropriately.

- The user must be able to view the analysis of their expenses.
- The UI which contains 2 graphs must be rendered properly.
- The user must be able to view the analysis of their expenses.
- The UI is rendered properly and the various components are functioning properly.
- The UI is rendered properly and the various components are functioning properly.
- This page allows the user to view the recurring expenses that he or she has created using the add recurring expense page.
- The user must be able to view their existing rewards and goals . They can also use the add reward and goal icon to add the reward and goal.
- The user must be able to add a reward and goal.
- The user must be able to view their existing rewards and goals in a properly rendered manner.
- The user must be able view the UI components to add a goal in the appropriate manner.
- The user must be able to create a new category for themselves.
- The UI components of the add category page is rendered properly and functions appropriately.
- The user views the expense cards, and clicks on a particular card's edit icon to modify the expense
- The user views the expense cards displaying the expenses available to edit.

| Test case                 | Feature    | Component     | Test Scenario                         | Expected Result | Actual Result | Status | Comments   | Bug | Executed By         |
|---------------------------|------------|---------------|---------------------------------------|-----------------|---------------|--------|------------|-----|---------------------|
| Home                      | Functional | Home Page     | User can see our page                 | Can visible     | Yes visible   | Pass   | Successful | -   | <u>Ajith kumar</u>  |
| Register                  | Functional | Register page | Verify user can see register          | Can visible     | Yes visible   | Pass   | Successful | -   | <u>Ajith Kumar</u>  |
| Login                     | Functional | Login page    | Verify user can see login             | Can visible     | Yes visible   | Pass   | Successful | -   | <u>Naveen kumar</u> |
| Add Wallet & Limit amount | Functional | Wallet page   | Wallet & limit amount added dashboard | Can visible     | Yes visible   | Pass   | Successful | -   | <u>Naveen</u>       |
| Add Expenses              | Functional | Table         | Expense add in dashboard              | Can visible     | Yes visible   | Pass   | Successful | -   | <u>Nathish</u>      |

## 8.2 User Acceptance Testing

## 1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the Personal Expense Tracker Application project at the time of the release to User Acceptance Testing (UAT).

## 2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level, and how they were resolved

| Resolution     | Severity 1 | Severity 2 | Severity 3 | Severity 4 | Subtotal |
|----------------|------------|------------|------------|------------|----------|
| By Design      | 10         | 5          | 2          | 3          | 20       |
| Duplicate      | 1          | 0          | 3          | 0          | 4        |
| External       | 2          | 3          | 0          | 1          | 6        |
| Fixed          | 11         | 2          | 4          | 20         | 37       |
| Not Reproduced | 0          | 0          | 0          | 0          | 0        |
| Skipped        | 0          | 0          | 0          | 0          | 0        |
| Won't Fix      | 0          | 5          | 2          | 1          | 8        |
| Totals         | 24         | 14         | 13         | 26         | 75       |

## 9. RESULTS

9.1 Performance Metrics An application can be a very powerful tool for businesses if once the app becomes a success. However, the success of an app is measured through numbers, metrics, and analytics. Developing an app takes quite a lot, so once you've dedicated much time, money, and effort to the process, it's mandatory to measure mobile app performance

## 10. ADVANTAGES & DISADVANTAGES

### Advantages

1. An added expense can also be modified. Hence an error that is made while adding an expense is easily rectified.
2. Rewards and goals may be used to motivate the user to spend less.
3. The expenses can be analysed to understand the patterns of expenditure.
4. Recurring expenses can be added to model bills and such.
5. Categories can be added for higher customizability.

### Disadvantages

1. Complex analysis based on categories is not supported.
2. Limits cannot be imposed on arbitrary periods of time, but only on a single month.

3. Recurring expenses have a period of exactly one month, which is not customizable.
4. It requires the user to manually enter expense information accurately.
5. The user is the one who is responsible for rewarding himself on the completion of a goal

## 11. CONCLUSION

A Personal Expense Tracker supporting myriad features has been designed and implemented using IBM's cloud based tools such as DB2, IBM Object Storage, etc. SendGrid is used to send mails to users. Docker and Kubernetes are used for deployment of the application

## 12. FUTURE SCOPE

Future avenues of work in this application would include:

1. Design and implementation of complex analyses based on various parameters such as categories, groups, etc.
2. Prediction of expenses based on machine learning.
3. Adding support for limits imposed on arbitrary periods of time.
4. Adding support for recurring expenses that have a user-specified period.
5. Having the application itself reward the user for accomplishment of various goals, such as coupons, vouchers, etc

## 13. APPENDIX

### 13.1 Source Code

```
app.py
from flask import Flask, render_template, request, url_for, flash, redirect
